

## STUDENTS TAKE UP CIVIC WORK

Special Attention Being Given to Geographical and Industrial History

Geographical and natural history of Ogden and vicinity are among the subjects emphasized in the city schools this season, according to Superintendent W. Karl Hopkins. Fourth grade students are giving special attention to questions of geography.

Through the co-operation of O. J. Stillwell of the Ogden Chamber of Commerce, a set of questions as civic affairs both for the instructors and the students have been completed. The questions which follow are divided into sections. The first four sections are for the teachers and the remaining sections are for the students. Every phase of industry is represented. The questions follow:

(A) Why did the city of Ogden grow up here?  
1. Why did people first settle here?  
2. What caused the early growth of the town?  
3. Why did it later become a city?  
4. Why will it continue to grow?  
5. Why is Ogden prominent in the intermountain country as chief—  
Railway center?  
Canning center?  
Livestock center?  
Milling center?  
Fruit shipping center?  
Food manufacturing center?  
Agricultural center?  
6. Why is Salt Lake City prominent as—  
Financial center?  
Jobbing center?  
Mining center?  
Political center?  
Ecclesiastical center?  
Tourist center?  
7. Why are all other Utah towns smaller than Ogden and Salt Lake City?

(B) Lake Bonneville:  
1. What was the size of Lake Bonneville?  
2. When was the lake here?  
3. How do you know there was a lake here?  
4. What has become of the lake?  
Why?  
5. Why are there two shore lines?  
6. What kind of farming lands did the lake leave?  
7. Why are these lands easily irrigated?  
8. Looking north from the north end of Harrison avenue—  
What canyon at your right?  
What river in front?  
Where does the river come from?  
Where does it go?  
What caused the coulee below?  
Where is the material that was eroded?  
Describe the coulee if lake should rise to where you stand.  
Compare with rivers of the world north of 40 degrees.  
Why do these northern rivers end in estuaries?  
Why do southern rivers end in deltas?  
Is the coulee growing wider? How? Show example.

9. What is a fault?  
Point out a fault.  
How far does this fault extend?  
Where do hot springs occur in this valley?  
What heats the water?  
Compare with Yellowstone park.  
10. What is a sand dune?  
Why can we not see the lake from this building?  
Where did the sand come from?  
What made it move north?  
Will it continue to move? Why?  
Where do you know of other dunes?  
11. Deltas and alluvial fans.  
What is the difference, if any?  
Point out one of each.  
Why are Utah towns located on deltas or fans?  
Do steam roads run directly into smaller towns? Why?  
Name and locate the great deltas of the world.

(C) City Water:  
1. Where does our city water come from?  
2. What is an artesian well?  
3. Explain the artesian wells of Ogden valley.  
4. Explain the artesian wells of this valley.  
5. Why do we find wood in borers?  
6. Why do new wells emit oil?  
7. What kind of water do we obtain?  
8. Why are there two strata of artesian water?  
9. How do other cities get their water?  
Chicago?  
St. Louis?  
San Francisco?  
Los Angeles?  
New York City?  
(D) Business center of Ogden—where is it?  
1. Why are the blocks so large?  
2. What do you find one mile north of business center?  
3. Where is Five Points? Why so called?  
4. What are the large buildings beyond Five Points?  
5. What is the large building beyond the city limits?  
6. What suburb 5.5 miles north?  
7. How high is this mountain?  
8. Compare with Mount Washington.  
(E) Going east from business center on Twenty-fourth street:

1. What made the hill you first climb?  
2. Name the churches you pass.  
3. What mountain beyond the end of the street?  
4. How high is it? Compare with Mount Hood.  
5. Of what range of mountains is it a part?  
6. Describe Mount Ogden sanctuary.  
7. Compare with parks and monuments.  
8. What canyon to the southeast?  
(F) Going south from business center on Washington avenue:  
1. Name and locate the public buildings.  
2. Why do we not go straight south to Salt Lake City?  
3. Explain the four terraces beyond Riverdale.  
4. Describe the coulee leading to Weber canyon.  
(G) Going west from center of town on Twenty-fourth street:  
1. Why was the viaduct built?  
2. From viaduct point out industrial buildings.  
3. For what purpose is the new construction tower to the southwest?  
4. Why have these industries come to Ogden?  
5. Describe the low range of mountains to the west.  
6. Why is the southern point of these mountains so smooth?  
7. Who first described the island to the south of the point?

(H) Paved roads:  
1. How far north do paved roads extend?  
2. How far south do paved roads extend?  
3. Why do we have no paved roads east and west?  
4. Compare amount of paved roads with other states.  
5. What ancient country is famous for building roads?  
6. Why did that country build roads?  
7. What kind of roads did they build? Why?  
8. What kind of roads do we build? Why?

(I) Early history of Ogden:  
1. Who first settled here? When?  
2. When did the Mormons first come?  
3. What did they do for a living?  
4. Why is there a \$50 fine for killing a sea gull?  
5. When and where was the first house built?  
6. Describe the first house.  
7. Tell of Goodyear, Captain Brown and Mary Black.  
8. Why and where was Mound Fort built?  
9. Why and where was Brigham's Fort built?  
10. Why was Wall avenue so named?  
11. Name five noted Utah pioneers. (Brigham Young, Heber C. Kimball, Charles C. Rich, Orson Pratt, Leven Farr.)  
12. What did the people do for money?  
13. Explain the use of tithing offices.  
14. Explain the Z. C. M. I.  
15. When did the railway come? (1869)  
16. What difference did the railway make?  
17. Locate one, two, three and four-mile creeks.  
18. Connect Prof. G. Taylor with the early settlers, also President Shurtliff, Dr. Mark Brown, Miss Cannon, teacher at the Weber Normal college, etc.

(J) Develop the following subjects as above:  
1. Locate and describe industries employing men.  
2. Learn agricultural products of county.  
3. Learn about irrigation.  
4. The wild animals of the county.  
5. Bird life of the state.  
6. Natural and introduced plants.  
7. Natural and introduced trees.  
8. Principal wild plants, etc.  
9. Scientific attractions.  
10. Climate.

(K) Railroads for finishing leading to study of surrounding country:  
1. What steam railroads enter Ogden?  
2. What electric roads enter Ogden?  
3. What transcontinental auto roads enter Ogden?  
4. Locate the first city larger than Ogden on the—  
Union Pacific.  
On the Southern Pacific.  
On the Oregon Short Line, north.  
On the Oregon Short Line, south.  
On the Oregon Short Line, north-west.  
On the D. & R. G. beyond Salt Lake City.  
On the Salt Lake Route, beyond Salt Lake City.  
On the Western Pacific, beyond Salt Lake City.  
5. Locate towns and give their business between—  
Ogden and Salt Lake City.  
Ogden and Cheyenne.  
Ogden and Grand Junction.  
Ogden and Reno.  
Ogden and Pocatello.  
Ogden and Logan.  
6. What do the railroads bring into Ogden?  
7. What do the railroads take out of Ogden?  
8. What do the railroads both bring into and take out of Ogden?  
9. What good do the railroads do us?  
10. Do we need more railroads? Why?  
11. Do we need more cement roads? Why?

"MADAME X" WITH A POWERFUL CAST AT OGDEN THEATRE TODAY

One of the strongest companies ever assigned to a motion picture production supports Pauline Frederick, the Goldwyn star, in her new Goldwyn picture, "Madame X," which comes to the Ogden theatre for four days commencing today. Miss Frederick has the role of Jacqueline Floriot, who is tried for murder as "Madame X" under which name she is registered at the prison because she refused to reveal her identity.

Casson Ferguson, who has played leading parts opposite many of the noted feminine film stars, has the role of Raymond Floriot, her son, who defends her at her trial for murder, not knowing that she is his mother.

William Courtright, who has been playing big roles in pictures for years, is Louis Floriot, her husband. Lionel Belmore and Willard Louis, two of the best known character men in screen work, play the Paris blackmailers, whose schemes lead Jacqueline to commit murder.

Others in the cast include Maud Louisa, Hardee Kirkland, Albert Ann-roe, Corcoran Kirkham, Sidney Ann-roe, Maude George, Cesare Gravina, Lloyd T. Whitlock and John Hohen-vest. Mr. Hohenvest also assisted Frank Lloyd, Miss Frederick's director as an advisor on French sets. He was a motion picture director in France for nine years before coming to the United States recently to study picture production.
